DA COSTA BUILDING,  
68 GRENFELL STREET,  
ADELAIDE.

SOUTH AUSTRALIA

1959/60

**SCOPE** This summary of General Insurance Statistics is compiled from returns furnished by the 169 insurance companies operating or licensed to operate within South Australia. Particulars for the year 1959/60 are compiled from details for each company, of transactions for the financial year ending between 1st July 1959 and 30th June 1960.

**DEFINITIONS** The statistics herein conform substantially to the definitions stated below and should be interpreted in accordance therewith:-

- (i) Premiums represent the full amount receivable in respect of policies issued and renewed in the year, less returns, rebates and bonuses paid or credited to policy holders in the year. They are not adjusted to provide for premiums unearned at the end of the year, consequently the amounts shown differ from "earned premium income" appropriate to the year. When figures are increasing, as in recent years, premiums receivable (as shown in the statistics) are greater than "earned premium income" appropriate to the year. The converse applies when figures are declining.
- (ii) Claims include provision for outstanding claims, and represent claims or losses incurred in the year.
- (iii) Contributions to Fire Brigades, Commission and Agents' Charges, and Expenses of Management mainly represent charges paid in the year.
- (iv) Taxation includes Income Tax, Payroll Tax, Licence Fees and Stamp Duty, and mainly represents payments made in the year. Amounts included for income tax are based on income of earlier years.

The tables contain selected items of statistics and are not construable as "profit and loss" statements or "revenue accounts".

**GENERAL INSURANCE TRANSACTIONS** Total premiums receivable, claims, etc. yearly from 1950/51 to 1959/60 for all classes of general insurances were as follows:-

Particulars of commission and agents' charges and expenses of management in each of the last four years are shown in Table 3. These items are distributed over the six groups of insurance indicated in Table 2 in accordance with an allocation made by the insurance companies. The contribution to fire brigades is levied on premiums in respect of fire risks.
